MEtutors

Project Completion Plan

PREPARED BY: Anum Irshad
ZAPTA Technologies (Pvt.) Limited

Introduction:

This document describes the 'Project Completion Plan' and focuses on all the tasks and development activities that need to be completed before the project is finally winded up. During project completion, the team will review the deliverables, then compare and test their quality to the intended project outcome. After all the phases are completed and bugs are fixed, the final product will be handed over to the client.

Phases:

1. Bugs resolving and retesting
2. Remaining scope development
3. Testing of new features
4. Bug resolving from newly developed features
5. Retesting of the resolved bugs
6. Finalizing the MVP-1

Bugs To Be Resolved:

- Note : fix the remaining things in hiring module tomorrow and start hiring can be at 30th of August
- All bugs on Jira
- Fast picture/slide changing time on MEtutors landing page
- Changing text on the hero section with each slide
- 'Get started' button needs to redirect to the signup page
- 'Find a course' button on the 'about us' page should redirect to the programs section on the home page
- 'Start Learning Now' on the student success page will redirect to the 'signup page'
- In teacher registration flow, under the section for the programs and classes that teacher will teach, in the tables that show the details for each subject, field grade is static with 9th value
- Need a check box for the 'select all' option for teachers in the 'availability slots' pop-up
- Add a 'reset' option in the availability slots pop-up
- Teacher should be allowed to go back in his complete profile section
- The textbook uploaded in the student's course booking process is not shown anywhere in the user's dashboard. We can add the 'textbooks' option above the 'resources.'
- The text of cards on top of the tutor's dashboard page needs to be according to finalized design
- 'Earned Certificates' will be only 'Certificates' on the student dashboard
- Makeup class button style should be similar to view class button
- 'Student Dashboard' on student's sidebar and top title
- 'Days' are missing in teacher profile and teacher data sheet on the admin side

Remaining Scope -MVP1

Sr No.	Tasks	Estimated Time
1.	Implementing of automated emails content and notifications (Content + Template)	3 days
2.	Pagination in the whole platform	2 days

3.	All transactions page	After design
4.	Responsiveness of all website	4 days
5.	Inbox for students and teachers (integrated)	3 days
6.	Changes in course booking process (Syllabus)-**to be designed**	4 hours
7.	Add teacher's video on teacher's profile for students to view- **to be designed**	1 hour

Project Milestones

Sr. No.	Milestone	Days	Date
0.	Hiring teachers		30th september
1.	Bugs resolving and retesting	12 days	7th Sep,22
2.	Remaining Scope	16 days	23rd Sep
3.	Testing and bugs resolving of remaining scope	To be determined	To be determined
4.	Final round of testing	4 days at max	-
5.	Final go-live including students	To be determined	To be determined(Around start to middle of October)

Release 1 (7 days – 10 days)

Sr No.	Tasks	Estimated Time
1.	Teacher requests payments	5 days
2.	Teacher Payment history	
3.	Teacher pending payment	
4.	Integration with payment gateway to pay teachers	
5.	Admin Manage Coupons-**To be designed**	4 hours
6.	Apply coupon-**To be designed**	3 hours

Release 2 (7 days)

Sr No.	Tasks	Estimated Time
1.	All transactions page	After Design
2.	Teacher dispute payments	

		Admin manage dispute payments	4 days
	3.	Student payment history	
	4.	Certificates (Students) -**To be designed (Flow is not completed)**	4 hours

MVP-2

Admin Dashboard Page -**to be designed**	After Design
Badges (Teachers)	4 hours
Inbox for students and teachers (for custom)	1 month
Languages-Mechanism	2 weeks
Filters in the whole platform	4 days
